EcoPro Energy Efficient Coldrooms

The greenest coldrooms in the world

EcoPro Coldrooms provide all the versatility and flexibility of the ProLine Extra Range, but with the added advantage of lower running costs by utilising the latest eco-friendly materials, components and refrigeration system.

With every business increased awareness of operating costs, the eco-friendly option can be justified to be the most effective long term option. Significant energy cost savings of up to 30% can be quickly achieved.

Standard EcoPro environmentally friendly features include the following to achieve these cost savings:

- > Low energy lighting
- > Low energy condensing units
- > Low energy evaporators
- > Strip curtains as standard
- > Low G.W.P. foam insulation
- > 98% recyclable

> EcoPro Coldrooms incorporate a range of eco-friendly components and features to reduce your energy costs

 Low energy evaporators
 100mm door insulation
 Semi rebate positive sealing doors
 Built to last
 Designed and built in the UK
 Strip curtains as standard
 High density foam 43kgm³
 Low transport carbon footprint
 New green foam insulation
 Peak control energy optimisation
 98% recyclable

“lower energy costs
 by utilising the latest
 eco-friendly technology”

Standard EcoPro build features include:

> **Condensing Units**
 Utilising the latest control technology to optimise the compressor efficiency, with the additional benefit of low noise

> **Lights**
 By using an 18 watt fitting we have been able to reduce running costs plus delivering the added benefit of longer tube life (around 15 months)

> **Evaporators**
 By using EC fan motors, we have been able to increase efficiency from the lower power usage. The additional benefit is a reduction in heat generated within the room

> **Strip Curtains**
 Standard on all Eco Pro rooms for lower energy costs, also keeps the evaporator clean for added reliability

Service

- > The complete package: make the most of Foster's extensive experience, from initial site survey, to design, quotation, manufacture and installation
- > Competitive: Foster Coldrooms are superior not only on quality, but also on price
- > Speed of quotation: automated Computair pricing system provides an instant quotation to suit your needs
- > Faster turnaround: Foster's Computair system speedily converts quotes into orders, and reviews stock and production planning to ensure the quickest availability

Design

- > Coldrooms are designed to meet your individual needs, making optimum use of your storage space.
- > Computair design and quotation technology provides an accurate scale drawing and quotation in seconds
- > The Foster Computair system selects the most appropriate refrigeration system and shelving arrangement for each individual room
- > Optimises panel and shelving layouts for the most cost effective and simplest means of construction
- > Creates an accurate scale drawing for customer approval, based on the customer's input
- > Design amendments are simple and easy to carry out

Installation

- > Quick and easy to install
- > Foster's dedicated Installations Team provides expertise, practical support and advice
- > Complete site supervision service available

Complete Flexibility

- > Foster Coldroom capacities and configurations are endless. Complete flexibility in the planning and manufacturing processes, allow coldrooms to be created to meet with the customer's space allocation and application criteria
- > PVC laminate complies with food contact recommendations avoiding the danger of food contamination
- > Panels are insulated with polyurethane foam
- > Panels are securely and safely locked together using the exclusive 'Fosterlok' camlock system

- > **Semi-rebate Door**
Available in a range of sizes to suit customer requirements.
Door dimensions:
1975 x 900mm (standard)
1975 x 800mm (option)
1975 x 675mm (option)
1975 x 600mm (option)
Door comes complete with Fermod 621 handle

- > **Sliding Doors**
Ideal for sites with narrow corridors and/or trolley traffic. Widths available from 600mm to 3000mm in 100mm increments

- > **Flip flap**
For easy access from one room to another.
Sizes on application

- > **Door Options**
Low voltage door frame heaters recommended with all rooms of temperatures below -2°C or high humidity

Low voltage transformer

Door kick plates for further protection to doors

Wiper Gasket for recessed/ramp options

Door viewing panel lets you see into the coldroom without opening the door (above 0°C only)

> Solo Plus Refrigeration

Wall or Ceiling Mounted integral refrigeration system

Choice of five different design temperature options available

Choice of capacities

Programmable control panel

HFC refrigerant

Tough, hygienic construction

> Eco Duet Refrigeration

Fully packaged refrigeration system

Includes Foster Unit Coolers

Seven temperature options

Split System flexibility
